Clip-Over  
Accessories

Smooth Fit  
Accessories

\* All oak/wood trunking accessories are brown finish, but can be stained to achieve best colour co-ordination to stained lengths (key surface of accessory with fine abrasive prior to staining)

## 1/2-Round Clip-Over Accessories - For 20x10mm, 30x15mm and 50x25mm only

**Internal Bend**

Join lengths around 90 degree inside corners.

**External Bend**

Join lengths around 90 degree outside corners.

**Flat Bend**

Change direction by 90 degrees on flat surfaces.

**Equal Tee**

Use to join 3 lengths of same profile.

**Door Top Bend**

Change direction by 90 degrees around frame tops.

**Box Adaptor Tee**

For use with D-Line Surface Socket Boxes. **50 x 25mm only**

**Flat Adaptor**

Connect Mini Trunking to flat surfaces **30 x 15mm only**

## 1/4-Round Clip-Over Accessories - For 22x22mm only

**Internal Bend**

Join lengths around 90 degree inside corners.

**External Bend**

Join lengths around 90 degree outside corners.

**Cable Inlet/Outlet**

Use to provide cable entry/exit point between 2 lengths.

**Use with Smooth-Fit Couplers & End Caps**

## 1/2-Round Smooth-Fit Accessories

**Internal Bend**

Join lengths around 90 degree inside corners.

**External Bend**

Join lengths around 90 degree outside corners.

**Flat Bend**

Change direction by 90 degrees on flat surfaces.

**Equal Tee**

Use to join 3 lengths of same profile.

**Coupler**

Join 2 lengths of same profile on flat surface.

**End Cap**

Neatly finish open ends.

**Pattress Adaptor**

Connect Mini Trunking to round surface pattresses. **30 x 15mm only**

**Circular Adaptor**

Connect Mini Trunking to flat edge surfaces with 20mm Ø knock-outs. **30 x 15mm only**

**Cable Inlet/Outlet**

Takes cables in or out of a Mini Trunking. Use between lengths on straight runs. **30 x 15mm only**

**Box Adaptor**

For use with D-Line Surface Socket Boxes. **30 x 15mm only**

**Box Adaptor Tee**

For use with D-Line Surface Socket Boxes.

**Reducing Tee**

Connect to 30 x 15mm Mini Trunking.

## 1/4-Round Smooth-Fit Accessories

**Internal Bend**

Join lengths around 90 degree inside corners.

**External Bend**

Join lengths around 90 degree outside corners.

**Cable Inlet**

Use to provide cable entry point between 2 lengths.

**Cable Outlet**

Use to provide cable exit point between 2 lengths.

**Coupler**

Joins 2 lengths on flat surfaces.

**End Cap**

Neatly finish open ends (left & right versions apply).

## Other Accessories

**Single Surface Socket Box**

For use with 30 x 15mm, 40 x 20mm & 50 x 25mm Trunking. Available in 28mm & 35mm depth.

**Twin Surface Socket Box**

For use with 30 x 15mm, 40 x 20mm & 50 x 25mm Trunking. Available in 28mm & 35mm depth.

**SAFE-D30 Clip**

Fire rated cable clip for use with 30 x 15mm D-Line & 25mm+ wide traditional trunkings. Safe-D Red version also available.

**SAFE-D40 Clip**

Fire rated cable clip for use with 40 x 20mm & 50 x 25mm D-Line & 40mm+ wide traditional trunkings.

**SAFE-D50 Clip**

Fire rated cable clip for use with 60 x 30mm D-Line & 50mm+ wide traditional trunkings.

**Ratchet Cutting Tool**

Use to cut up to 40mm wide D-Line Trunking.

# Fitting Guide for 1/2 round D-Line

# D-LINE®

## Measuring up

Plan your cable path. Check that you have all parts required. Next consider the space that will be needed for any accessories needed.

**Clip-Over** accessories allow a tolerance for imprecise measurements and untidy cuts.

**Smooth Fit** accessories give a smooth flush-alignment for perfect finish, but require precise measurements and straight cuts.

For Smooth fit use the accessory part as a template; pencil mark the surface at the shoulder points of the accessory.

These pencil marks indicate the point that the D-Line length needs to measure up to.

### Clip-Over example...

### Smooth fit example...

## Cutting & Installing Lengths

- Measure length(s). Pencil mark where cut is required.
- Use a mitre block and junior hacksaw to cut at the outer edge of the pencil mark.
- Remove the protective film cover.
- To peel & stick... Make sure the surface is clean & dry. Alternatively lengths can be drilled and screw fixed; as recommended for profiles with bases wider than 35mm.
- For easier installation we recommend that horizontal runs are fixed with the click lock at the top and the hinge at the base.
- Take care when positioning lengths, as a strong bond will be created with the surface.

## Installing cables & accessories

### Clip-Over

Lay cables into lengths, close the lid ensuring it snaps shut, then clip the accessory in place. The tabs clip over the top of the lengths.

#### Internal Bend

#### External Bend

#### Flat Bend

#### Equal Tee

#### Door Top Bend

**NOTE:** some Clip-Over accessories have a section of self adhesive tape applied to the reverse. This helps secure the piece in place, please use if necessary.

## After Care

D-Line can accept gloss or emulsion paints... For best results use fine sandpaper to key the surface prior to painting.

### Smooth Fit

Lay cables into lengths, place the required accessory over the cables, then close the lid ensuring it snaps shut.

The lengths hold the accessories in position.

#### Internal Bend

#### External Bend

#### Flat Bend

#### Equal Tee

#### Cable Inlet/Outlet

#### Connector

#### End Cap

It may be necessary to shape some accessories to allow for imperfections on walls.

**Important:** If using D-Line for high voltage mains cables it is recommended you leave 45%+ of internal capacity for air circulation.

#### External Bend

#### Connector / Cable Inlet

NOTE: some Clip-Over accessories have a section of self adhesive tape applied to the reverse. This helps secure the piece in place, please use if necessary.

### After Care

D-Line can accept gloss or emulsion paints... For best results use fine sandpaper to key the surface prior to painting.

### Smooth Fit

Lay cables into lengths, place the required accessory over the cables, then close the lid ensuring it snaps shut.

The lengths hold the accessories in position.

#### Internal Bend

#### External Bend

#### Cable Inlet/Outlet

#### Connector

#### End Cap

Note: there are left and right sided end caps

It may be necessary to shape some accessories to allow for imperfections on walls.

**Important:** If using D-Line for high voltage mains cables it is recommended you leave 45%+ of internal capacity for air circulation.
